BIRD LECTURE FINE.

Game Warden Makes Plea for Their Protection.

Game Warden Binley gave a very interesting lecture at the Baptist church Friday evening, on birds. It went into details as to their habits and was beautifully illustrated with colored slides. It contained a strong plea to the men and boys to be kind to and not to destroy birds. There was a good attendance and all were well pleased with the lecture.

STORES WILL CLOSE.

Practically All Business Houses Will Be Closed for Holiday.

The grocery, dry goods and clothing stores will be closed all day on Thanksgiving day, and the drug stores will observe Sunday hours. The banks will also, of course, be closed.

Debs Indicted—Two Arrested.

Fort Scott, Kan., Nov. 23.—In the federal court indictments were returned here against Debs, the socialist candidate for president; Fred D. Warren, editor of the Appeal to Reason, and J. I. Sheppard, Warren's attorney. Warren and Sheppard were arrested here today. The indictment charges "obstruction of justice by inducing witnesses to leave the country."

Thanksgiving Good Things to Eat.

Phone 122.

MORE RAILROAD TALK

Important Developments Scheduled for Coming Week in Rogue River Valley.

Medford, Ore., Nov. 26.—Important developments in the railroad situation are scheduled for the coming week, with Grants Pass playing its strongest card for the securing of a railroad to the coast. Dr. F. D. Reddy returned Saturday from a trip to San Francisco, where he has been for the last week, and conferred with Grants Pass citizens. A meeting of the business men of that city will be held next Tuesday, at which definite plans for a railroad and securing of funds will be held.

It was reported Saturday that coast representatives of the Hill lines will be in Medford the second week in December and that plans will be made at once for taking them over the route to Crescent City, at least as far as possible. It was also rumored that the Towne interests, who control the Blue Ledge mine, had secured an island for a smelter site near Crescent City and that they were taking an active interest in the proposition.

The plans as now developed are in such a stage, the promoters say, that nothing definite can be given out for publication. The general opinion about town is that the Grants Pass activity is inspired by the Harman lines in an effort to block the threatened invasion of their territory by their ancient rivals in the northwest—the Hill lines. In this connection it is recalled that central Oregon was untouched until Jim Hill invaded the undeveloped country with his rails.

The surveying party is now engaged in setting stakes and lines down the Applegate from the summit of Jacksonville hill.

Woman on Medford Board.

Mail Tribune: The city dads Friday night officially recognized the women of Medford, granted the franchise at the recent election, by the appointment of Mrs. A. B. Schuster to the city registration board which will sit for ten days next month to register voters for the coming city election. A delegation of suffrage workers requested the council to appoint a woman to the board and at their suggestion Mrs. Schuster was appointed.

In the appointment of Mrs. Schuster the Medford city dads were the first men in Oregon to officially recognize the women of the state following the granting of equal suffrage and Mrs. Schuster is the first woman to be so recognized. She was an earnest worker for the cause during the recent campaign and is well fitted for the place.

The registration board is composed of Mrs. Schuster, Clinton Tetter and James Stewart. The mayor was given power to employ such extra clerks as may be needed. With the number of voters increased by the granting of suffrage to women the one board provided by the charter will be kept extremely busy. It will meet ten days from 1 to 7 p. m. at the city hall, commencing December 14.

TALENT IMPROVEMENTS

Waterworks and Electric Street Lights Being Installed—School Building Fine.

Our sister town of Talent is certainly forging to the front in the way of public works. Her school house, which was erected in the summer and fall of 1911, is a model of completeness for a town of its size. A representative of the Tidings had the pleasure to inspect it throughout one day last week, through the courtesy of Professor F. C. Smith. The building is of red pressed brick, handsomely trimmed with white brick, and will eventually have eight school rooms. At present only four teachers are employed, the lower floor only being finished off. There is a convenient office for the principal on the first floor and also a large assembly room with a gallery, well seated with opera chairs in the main floor and with folding chairs in the gallery. The seating capacity is about 350 people and the room is fitted with a small stage with dressing rooms on each side, so that the school can use it for putting on entertainments.

The school, by the way, is now planning to put on a play for the securing of funds for additional equipment, etc., for the school.

The building is heated by steam throughout and has its own water and sewer system, though it will be probably connected with the city water plant when the latter is completed. The building has the latest and most sanitary toilets and sanitary drinking fountains. There is a good gymnasium, well equipped, with shower bath and dressing rooms for both boys and girls. There is also a play room for the "kiddies" in addition to the regular gymnasium. One feature rather uncommon, but highly appreciated, is the lunch rooms. There are two rooms in the basement, one for the boys and one for the girls, fitted with long tables and seats for the benefit of those who have to carry lunches.

There is not a school in the valley better equipped for grade work than Talent, and the special commutation rate to Ashland, with the excellent motor service, permits the high school pupils to attend the city schools at a cost of only \$1 per week for transportation charges. They arrive in Ashland at 9:20 and leave for home at 4:25. Talent certainly has every reason to be proud of her schools.

But its schools is not the only department of Talent civic life which is going forward. Some time ago \$20,000 in bonds was voted for a municipal waterworks system. A well has been put down and cemented and the work of laying the mains and putting up the standpipe is now in progress. The city is buying the material for the mains and the contract for furnishing the labor and tools for putting in the pipes has been let to Messrs. E. E. Phipps and T. H. Simpson of Ashland, who have a large crew of men at work. Steel pipe is being used, the largest being eight inches in diameter. There has been the usual delay in getting material on the ground, which has delayed the work, and the contractors will probably be compelled to lay off their crew for some time.

The standpipe is 35 feet high and 18 feet in diameter and has a storage capacity of 150,000 gallons. The elevation of the standpipe is such that there will be a pressure of 50 pounds to the square inch in the business section of the city. It is planned that should the erection of larger buildings demand it a booster pump can be put in and the pressure raised to any reasonable amount.

The village is also putting in a street-lighting system. They have contracted with the Oregon-California Power Company for the installation of 16 40-candlepower series Tungsten lamps. There is transformer capacity for 60 lamps and the system will be increased as fast as the growth of the village warrants.

The pupils of the Talent schools have been taking up contributions for the orphans' home at Portland. They have contributed a large amount of canned and fresh fruit, vegetables and groceries. The Southern Pacific Railway Company has agreed to transport the donations free of charge.

"Spruce Up" for Thanksgiving

On Thanksgiving of all days you should look your best. The best to be had awaits you at ENDERS'.

Have you seen our Rug department? A surprise awaits you there. Rugs worth \$25 sell at \$18.50; \$15 values at \$11.50; \$5.50 values at \$3.95; \$2.50 values at \$1.49. Anglo-Indian art square carpets, all sizes and colors, at the lowest prices.

THE BIG DEPARTMENT STORE

Enders Block

H. G. ENDERS & SON, Props.

East Main St.

E. E. Phipps and T. H. Simpson of Ashland are almost daily visitors to Talent, looking after their contract for putting in the waterworks pipes.

C. A. Gardner has leased the Jerry Nunan residence at Jacksonville for two years and will remove to the county seat in a few days, so as to be ready to assume the duties of the office of clerk of the courts on the first of January. Many friends here will be sorry to lose Mr. Gardner from the village.

C. A. Gardner reports two transactions in real estate the past week. Ada Judson has traded a 160-acre ranch on Anderson creek to Maze & Hale of Medford for a residence in that city, they paying the difference of the value of the farm, \$6,000 in cash. In the other deal J. T. Buck exchanges 60 acres on Anderson creek for a house and an acre of ground in Talent, with G. A. Morse.

Dr. W. H. Bagley of this city was in Ashland on business Friday, accompanied by his wife and baby.

Word from several Talent men who went south last week to work on California fruit ranches brings word that they are getting the munificent sum of \$1 per day.

Christmas Novelties arriving daily at Madame Dihan's.

Rummage Your Garrets.

The local Elks have kindly given the use of their dining room and kitchen for a rummage sale and cafeteria to be given for the benefit of the Sunshine Society on Thursday, December 5. The society wishes everyone to look up all the old clothing, etc., which is worth selling and donate it to the society.

Try Tidings job printing. The quality is remembered long after the price is forgotten.
